

Ba 732
DPS-4251
Copy 3 of 4

18 September 1958

Baird-Atomic, Inc.
33 University Road
Cambridge 38, Massachusetts

ATTENTION:

Gentlemen:

Reference is made to our Contract No. BA-732, covering technical services, which expired on 30 June 1958.

Your final statement of costs submitted pursuant to Part X of the contract has been reviewed and, as you know, a cost audit has been conducted in connection therewith by the Project's auditors.

A copy of the auditor's findings is enclosed for your information and retention. It will be noted that the auditor has recommended that certain items totaling \$1,457 be disapproved. These recommendations are considered reasonable and it is requested therefore that a credit memo in the amount of \$1,457 be issued against your billings under the contract. This will result in a total amount of \$95,735 payable under the contract.

It is requested that your credit memo be submitted at the earliest practicable date in order that your final invoice may be processed for payment in the adjusted amount.

Very truly yours,

25X1

Contracting Officer
